I _____, understand that the practice of yoga can reduce stress, release muscular tension, improve balance and flexibility and increase strength.

I understand that the yoga instructor does not diagnose illness, disease, or any other physical or mental disorder. The yoga instructor does not prescribe medical treatment or pharmaceuticals, nor does the instructor perform any spinal manipulations. It has been made clear to me that yoga is not a substitute for medical examination or diagnosis and it is recommended that I see a physician for any physical ailment I might have.

Because a yoga instructor must be aware of existing physical conditions, I have stated all my known medical conditions and take it upon myself to keep the yoga instructor updated on my physical health.
